Ratio:

2.08

Gain DAO pool managers have maintained consistent returns in various market conditions while limiting periods of drawdown. Our objectives are to generate an average of 3-5% monthly returns, while targeting less volatility than the S&P500.

Onboarding process

Select a broker

Onboard with your broker

Onboard with us

Onboarding with a broker is similar to opening up a bank account. Once your broker account is open and funded we will connect your broker account to our master account.
